

Warehousing Lamps

The Light Footprint Warehousing lamp series has been designed to operate like a standard SON / MH lamp and will fit into most existing fittings with little to no alterations required.

The lamps are assembled using high grade SMD LED's and high quality components to ensure optimal levels of light output combined with efficient heat management.

With instant start up, full brightness and no flicker the Light Footprint LED Warehousing lamps are compatible with most types of occupancy sensors.

They are available in a range of power outputs to enable sourcing like for like alternatives and can be ordered with either a Standard (ES) or Giant (GES) Edison Screw base.
