

Recessed Downlights

The Light Footprint range of LED Recessed Downlights is designed as a direct replacement for traditional Halogen lamps. The downlight maintains all the positives of Halogen while avoiding the associated problems (short life / regular lamp changes, high running temperature / localised scorching).

This product utilises Luxeon/Luminleds LED technology and the standard, dimmable & directional options are all Fire and IP rated as standard. Should you require directional replacement the fittings also comes as a tilt option with +/- 20° rotation.

The unique lens (LOR 92%) delivers an impressive beam angle of 38° & 60° (for the dimmable & adjustable) while the driver position can be adjusted for ease of installation. The units come in a range of colours and finishes with accessories for maximum functionality.

This luminaire is installed direct to a mains connection and is double insulated for protection. The manufacturer offers an extended 7yr warranty (subject to installation by a recognised qualified electrician) to offer maximum reassurance on investment.

Technical Specification

Total Circuit Wattage	8.5W
Working Voltage	220-240VAC
Working Temperature	-40°C
Beam Angle	38°/60°
Estimated Life Span	70,000hrs
CRI	>80
IP Rating	IP65
Power Factor	>0.95

7 Year Extended Warranty

DIMMABLE

Bezel Options

Round: d.90mm Matt Black / Brushed Steel / Chrome / Polished Gold / Silver / Matt White

Square: 90 x 90mm Matt Black / Chrome / Polished Gold / Silver / Matt White
