

## T8 HB LED Tubes

The Light Footprint T8 LED tubes utilises the latest High Brightness SMD chip technology to maximise light output, while incorporating a shatterproof polycarbonate opal lens and adjustable end caps to allow for optimal diffusion and directional control.

Produced to the highest specifications our tubes have as standard, built-in high power factor isolated drivers to maximise tube efficiency combined with total in-rush protection to safeguard vital components from power surges, over-load and over-heat protection. Using single sided power (SSP) and non-conductive end caps ensures simple and safe installation.

\*Please see T8 installation guide for rewiring instructions.

### Technical Specification

Total Circuit Wattage 10W/14W/18W

23W/28W/36W

Working Voltage 100-265VAC

Working Temperature -30°C/+45°C

Beam Angle 140°

Estimated Life Span 50,000hrs

CRI >80

Lamp Base Rotatable G13

Power Factor >0.96

### Test Standards

EN55015:2006+A1:2007+A2:2009

EN61547:2009

EN61000-3-2:2006+A1:2009+A2:2009

EN61000-3-3:2008

EN60598-1:2008+A11:2009
